

ROTATING TRANSIT TUBE

- INCREASE RIDERSHIP ▪ GENERATE AD REVENUES
- PROVIDE UNMATCHED ADA INFORMATION ACCESS

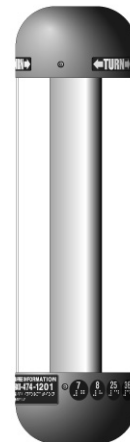

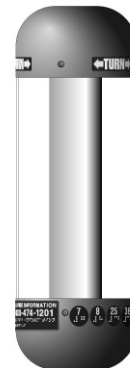

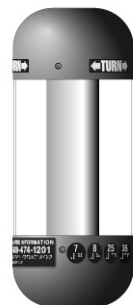

Make an impact on your Transit System by providing information where it is needed most... at the bus stop, as a proven way to increase ridership.

- Displays a large amount of information in a low cross section - Ideal for areas where space is at a premium. Large enough for rider information and transit advertising!
- Rotates on dual bearings for viewing convenience and safety
- No sharp corners - Safer for public environments
- Rugged non-rusting aluminum construction
- Available with interchangeable braille & tactile route numbers (stainless steel)
- Heavy-duty outdoor bearings never require lubrication or maintenance
- Full 360° window area with no seams
- Fast graphics exchange for faster service changes
- Mounts on U-channel, round or square bus stop poles with no drilling or special tools required
- Fast & simple one-person installation with photo-illustrated instructions
- Available in a wide range of sizes and colors

Quick-Release Cap System

Change information in under 1 minute!

Typical Bus Stop Installation

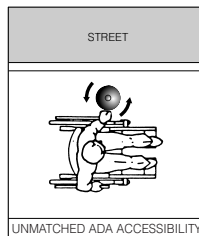

Wall/Shelter mounting system allows installation on bus shelters or any flat surface

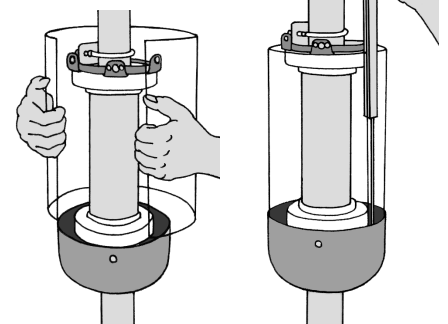

Available with interchangeable braille/tactile route identifiers

Large enough to display an entire System Map

Fingertip rotation for effortless viewing

Field maintenance is quick and easy with the "Split-Tube" plastic replacement system
